

INTRODUCTION

After the incident of testing of trinity, Maharishi Bhrigu decided to write his famous book of astrology, the Bhrigu Samhita, to help Brahmins earn their living. Maharishi Bhrigu collected birth charts, wrote full-life predictions and compiled them together as Bhrigu Samhita. Bhrigu Samhita is believed to be the first book of its kind in the field of astrology. A few parts of Bhrigu Samhita have survived the wear of time and are still available in Hoshiarpur, Punjab. It is also believed that these books are distributed between some brahmans but no one has all details that these books had to be. So because of this nowadays, astrology's prediction came to an accuracy of only 30%.

Here i m sharing link of a you tube video with some case studies started with Bill Gates.

Death at a Young Age

The exact or very close affliction of Rahu or Ketu or the most malefic planet (MMP) to any planet threatens the longevity of the person suddenly. This is especially so when the afflicted planet is the prime determinant of longevity or health. The incidence of prolonged transit influences in such cases of sudden threat to life proves fatal.

The sign Cancer rises in the ascendant. The planets Moon, Sun, Mars, Venus and Mercury become functional benefic (favorable) planets. Jupiter, Saturn, Rahu and Ketu are the functional malefic (unfavorable) planets. Mercury acts as a Sun-like planet. The first, second, third, fourth, sixth, eighth and tenth houses are indicators of sources of finances / wealth in this case as these houses contain the mooltrikona signs of various planets.

In this case the prime determinant of health Jupiter is under a very close affliction of the Rahu and Ketu axis. So this is a case dealing with a sudden threat to life. Besides the special affliction to Jupiter, the lord of the ascendant is also under the close aspect of the Saturn, Ketu and Jupiter in the natal chart. Mars is the only strong planet and the Sun, Venus and Mercury are weak. The person suffered from stones in the gall

bladder and the gall bladder was removed in the year 2008. The person had some pain and it was found that another stone was in the making which was to be removed after an endoscopy. During the the endoscopic procedure some damage was done to the pancreas ruled by Jupiter. During the recovery of this injury the native developed an infection when she was under a prolonged transit influence in the last week of February 2016. When such prolonged transit malefic influences are in operation the recovery takes longer than the usual expected time.

Towards the end of February Jupiter and Rahu were in close conjunction and also close to the most effective point of the second house. They impacted the houses aspected as well. The lord of the second house in transit was in the eighth house. Similarly transit Ketu was also afflicting transit Jupiter and the most effective points of the 12th 2nd and fourth houses. Transit Saturn had also started a close aspect to transit Jupiter. The aspect of transit Saturn to transit Jupiter started becoming closer and it became almost exact in the third week of March 2016. This person was first operated on in the hospital and as they could not handle the infection that developed after surgery, the person was shifted to another hospital where the person remained in ICU for 28 days and succumbed to the illness.

The exact aspect of the most malefic planet Saturn was continuing to the transit Jupiter besides the continued prolonged transit influence of Rahu and Ketu on the most effective points of the various houses. On the date of the death of the native the lord of the ascendant was also in the 6th house whose dispositor was under the exact affliction of transit Saturn, the lord of the eighth house.

The person was under the treatment in the ICU of a super specialty hospital but could not survive the infection received during surgery.

Conclusion

Here, is all i have researched from last few days . But i will definately learn magic behind ASTROLOGY whenever i will get time.
